## Microsoft® Office Word 2007: Level 1 (Second Edition)

### Course Specifications

Course number: 084893

Software: Microsoft® Office Word 2007

Course length: 1.0 day(s)

Certification: Microsoft Certified Application Specialist – Word 2007

**Course Description:** Word processing is the use of computers to create, revise, and save documents for printing and future retrieval. This course is the first in a series of three Microsoft® Office Word 2007 courses. It will provide you with the basic concepts required to produce basic business documents.

**Course Objective:** You will create, edit, and enhance standard business documents using Microsoft® Office Word 2007.

**Target Student:** This course is intended for individuals who want to gain basic knowledge of working on Word. Individuals who want to pursue Microsoft Certified Application Specialist certification in Microsoft Office Word 2007 can also take this course.

**Prerequisites:** Students should be familiar with using personal computers and have used a mouse and keyboard. You should be comfortable in the Windows environment and be able to use Windows to manage information on your computer. Specifically, you should be able to launch and close programs; navigate to information stored on the computer; and manage files and folders.

**Delivery Method:** Instructor led, group-paced, classroom-delivery learning model with structured hands-on activities.

### Certification

This course is one of a series of Element K courseware titles that addresses Microsoft Certified Application Specialist (Microsoft Business Certification) skill sets. The Microsoft Certified Application Specialist program is for individuals who use Microsoft's business desktop software and who seek recognition for their expertise with specific Microsoft products. Certification candidates must pass one or more proficiency exams in order to earn Microsoft Certified Application Specialist certification.

### Performance-Based Objectives

Upon successful completion of this course, students will be able to:

- create a basic document using Microsoft Word.
- edit documents by locating and modifying text.
- format text.
- format paragraphs.
- add tables to a document.
- add graphic elements to a document.
- control a document's page setup and its overall appearance.
- proof documents to make them more accurate.

### Course Content
